

T.A.P.[®] HIGH-OUTPUT 575 PCO

TAP[®] 575-PCO Machine w/ Dual Agitators (Up to 93 bags/hr.)
COMPLETE PACKAGE

The high-output 575 PCO Blowing Machine, available exclusively from TAP[®] Pest Control Insulation, provides 33% greater output than the workhorse 475 and utilizes common household current. With an impressive output rate of up to 93 bags of TAP[®] Pest Control Insulation per hour, the 575 PCO shaves valuable labor time from attic capping and attic restoration projects. That's more money in your pocket! Safety guards provide operator protection and the removable hopper allows for easy access to the machine's all-steel airlock for cleaning. The dual agitators enhance the conditioning of insulation fibers. A cord hanger and hand pendant hanger allow convenient storage of cords and hand pendant.

"This machine saves time on each job." -Tim D., Ohio

Mechanical Features:

- Output Rate – up to ninety-three 30lbs bags of TAP[®] per hour using a 3" blowing hose
- Safety guards provide operator protections
- Removable hopper for quick and easy access to the airlock
- Modular component design for quick disassembly/reassembly for easy troubleshooting and maintenance
- Improved blower filter design for less filter maintenance
- Dual (2) agitators that enhance the conditioning of fibers
- 3/4 hp. Totally Enclosed Gear Motor (470 in./lb. torque) for a long life
- All steel airlock for precise spraying and metering capabilities
- Extra-heavy, nickel-plated #40 chain with hardened steel sprockets provides a corrosion/abrasion resistance drive system
- Cord hanger and hand pendant holder allow for convenient storage of cords and hand pendant

Electrical Features:

- 150 ft. (46 m.) remote control cord with three (3) position switch gives increase operator control of feed and blower
- Operator Safety/Hazard Features – emergency kill switch and manual override at machine
- 15 amp thermal overload protection for complete protection of the agitator/material feed motor
- 24VAC outlet
- Breaker protection for transformer providing properly sized fuse protection on the amp transformer

The 575PCO Package Includes:

- 575 PCO Insulation Blowing Machine
- 100' hard-wired remote
- Run-flat wheel kit
- Necessary connectors
- Necessary hose clamps
- 150' of 3" Vacuflex insulation hose
- 3" hose reel
- 100' of 10-3 power cord with 15A plug
